Subject: IWG review of the pulmonary function sections

Barbara and Andrew,

Attached are comments for the pulmonary function sections of the formaldehyde assessment. The primary reviewers were Audrey Galizia and Mehdi Hazari. You can tell they put a lot of thought into their reviews. Major comments are in **bold text**. Both John Stanek and I reviewed Audrey's and Mehdi's comments and found them to be thorough and constructive. John Stanek embedded a few confirming comments into Audrey's and Mehdi's comments.

If you need clarification for any of these comments, feel free to contact Audrey (732-906-6887) or Mehdi (919-541-4588) directly; or if you prefer we can schedule an IWG meeting to discuss them.

John
